

HUNGRY FOR BETTER TURKEY

We believe mouthwatering quality starts on the farm.

How to Menu A BETTER TURKEY

It's really quite simple: Choose PERDUE® NO ANTIBIOTICS EVER Turkey. Unlike some other guys, every single one of our turkeys is raised to a higher standard. When we say "NO ANTIBIOTICS EVER," we mean NEVER EVER for all of our birds across our entire product line. We don't use antibiotics in any life stage. Not in the egg. Not in the hatchery. And certainly not in our exclusive All-Veggie Feed crafted with NO Animal By-Products. It all adds up to great taste and powerful menu claims that elevate every dish across dayparts.

NO ANTIBIOTICS EVER, NEVER EVER

Not in the egg, not in the hatchery, not in the feed. Our turkeys **NEVER EVER** receive any form of antibiotic at any life stage.

100% VEGETARIAN DIET WITH NO ANIMAL BY-PRODUCTS

Our superior feed features only the good stuff (like grains, corn, soybeans) to ensure a well-balanced diet and better tasting turkey.

NO HORMONES, STEROIDS OR GROWTH-PROMOTING DRUGS

We've never used them and never will.*

INDUSTRY-LEADING ANIMAL CARE

We know exceptional animal care is at the core of high-quality products.

HATCHED, RAISED & HARVESTED IN THE USA

Our USDA Process Verified Programs certify that our turkeys are raised on American farms and stay in the USA through processing.

Get Inspired.

TURKEY FOR EVERY DEMAND

Some product codes are available with additional menu claims, such as:

- Certified Gluten-Free
- Lower Sodium
- Labor Saving

Visit perduefoodservice.com[®] for ideas on how to take your menu to the next level with our Raw and Oven-Roasted Breasts, Sliced Turkey and more!
