

**CHICKEN THAT ADDS PROFIT
TO EVERY PLATE**

Discover More Ways to Menu GREAT-TASTING CHICKEN

From the fun of nuggets to gourmet platings, chicken has a place on almost every menu. But to really stand out, you need the delicious quality of our PERDUE® brand and PERDUE® NO ANTIBIOTICS EVER chicken lines. Together, they provide a full portfolio of formats to fit every dish you can dream up, across all dayparts.

All PERDUE® Chicken Is Crafted for Transparency—That Means:

-  **NO HORMONES, STEROIDS OR GROWTH-PROMOTING DRUGS**
Federal law prohibits the use of added hormones and steroids in poultry.
-  **INDUSTRY-LEADING ANIMAL CARE**
We know exceptional animal care is at the core of high-quality products.
-  **IT'S HATCHED, RAISED & HARVESTED IN THE USA**
Our USDA Process Verified Programs certify that our chickens are raised on American farms and stay in the USA through processing.

Our largest competitor has gone back to giving their chickens antibiotics before they're even sick. For PERDUE® NO ANTIBIOTICS EVER, we believe antibiotics aren't the answer. Raising healthy chickens is.

PERDUE® NO ANTIBIOTICS EVER Chicken Includes These Premium Menu Claims:

-  **NO ANTIBIOTICS EVER**
Not in the egg, not in the hatchery, not in the feed. Our chickens **NEVER EVER** receive any form of antibiotic at any life stage.
-  **100% VEGETARIAN DIET WITH NO ANIMAL BY-PRODUCTS**
Our superior feed features only the good stuff (like grains, corn and soybeans) to ensure a well-balanced diet and better-tasting chicken.

Get Inspired

Visit perduefoodservice.com for ideas on how to craft craveable meals with our Ready to Cook and Fully Cooked offerings, including breaded and non-breaded options.
